

December 2016

Dear Valued Toshiba Medical Customer,

We are happy to report that Canon has completed the global regulatory review of its Toshiba Medical acquisition. We are now officially a Canon company.

This is an exciting time in our company's history as we are joining forces with a well-respected, global leader in imaging solutions. This partnership brings together the strength of a \$4 billion healthcare company, Toshiba Medical, with a \$31 billion global conglomerate. Both companies have built businesses over a 100-years+ and operate in more than 130 countries worldwide.

We look forward to the many synergies that will benefit our customers in a Toshiba Medical and Canon partnership. Together, our combined history of research, development and innovation will enhance our ability to improve the quality of life for all people.

Our innovation and commitment to customer service are stronger than ever as demonstrated at this year's RSNA, where we introduced a new product in every modality.

We are confident that our strong history and our "Made for Life" philosophy will continue to drive our company forward.

We thank you for your business and continued support. We believe that the transition to a Canon company will be seamless. You can rest assured that we will continue to provide you with the highest level of support possible as indicated by our long standing record in the market. Should you have any concerns or questions that cannot be addressed by your local representatives, I invite you to contact me or any other senior executive here at Toshiba America Medical Systems, Inc.

Sincerely,

Shuzo Yamamoto
President and CEO
Toshiba America Medical Systems, Inc.
